**DETAILED ACTION**  
**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Pat Patnode on 2/17/09.

Claim 22 is cancelled.

***Allowable Subject Matter***

1. Claims 1-7 and 9-21 allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach a reformer, separator, combustor, and gas turbine, wherein the reformer and combustor are separated by a wall that avoids material transfer through it and wherein some of the heat of combustion is used to produce the reformat in the reformer. The closest prior art is WO 02/02460 to Deckman. Deckman teaches all of the structural elements, but fails to teach the reformer and combustor separated by a wall that avoids material transfer. Deckman's reformer provides hydrogen to the combustor. US Patent 5,417,051 to Ankersmit also teaches a reformer

that is provided with heat from the combustor (Fig 4; heat from exhaust line 7), but the reformer and combustor are not arranged next to each other such that they are separated by a wall (fluid from the combustor goes through the turbine before going through the reformer).

There are instances of a reformer receiving heat from a combustor wherein the reformer and combustor are separated by a wall, such as in US 2004/0191591, but these are in the fuel cell art and do not involve a gas turbine. Arranging the reformer and combustor in such a way in a gas turbine would involve significant modification that is not taught or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
